

John Muir Health | UCSF Health

Berkeley Outpatient Center

The Healing Power of Teamwork

The Berkeley Outpatient Center (BOPC) is a unique collaboration and partnership between John Muir Health and UCSF Health, two health care systems that are locally and nationally ranked by *US News & World Report*.

Through this partnership, we have committed to providing East Bay residents with the care you need most, all under one roof, including:

- + **Primary Care** (including Women's Health Services)
- + **Specialists**
- + **Same-Day or Next-Day Urgent Care Appointments**
- + **Lab Services**
- + **Imaging, Including X-Ray, CT/MRI, Ultrasound and 3D Mammography**
*PET/CT coming Fall 2022
- + **New Expanded Cancer Center With Online Appointment Scheduling**
- + **Infusion Services, Chemotherapy**
- + **Free, Validated On-Site Parking**

Insurance Information for University of California Employees

You can receive primary care at BOPC if you're enrolled in UC Health Net Blue & Gold and your primary care provider is part of John Muir Medical Group. If you want to change your medical group to John Muir Medical Group (to establish primary care), call Health Net directly before scheduling an appointment.

You can also receive specialty care and ancillary services at BOPC, including lab and radiology, if you're enrolled in Canopy Health (UC Health Net Blue & Gold) and your primary care provider is part of Hill Physicians Medical Group - San Francisco, John Muir Medical Group or Meritage Medical Network.

If you're enrolled in one of the UC-sponsored PPO plans (UC Care, UC Health Savings Plan or CORE), you can receive primary and specialty care at BOPC, along with available ancillary services.
